Safety, Security & Emergency Training for a Challenging World

COMPANY PROFILE

INTERNATIONAL STANDARD SAFETY TRAINING NOW AVAILABLE IN LIBYA

Libyan Australian Safety Services JV (L.A.S.S.) is a Libyan registered company (Commercial Registration #2415, Branch 19) trading as M&O Libya. Formed as a joint venture between a local oil service company, and the global training specialists M&O Global, who design and conduct specialised, client focused training and education programmes and associated services across 20 different countries. In all these places we are committed to service and passionate about quality.

Recently launched in Libya, M&O Libya now offers a diverse range of world class competency based training courses to meet the safety training needs of the Libyan oil and gas industry, at our dedicated training centre in Tripoli.

WIDE RANGE OF TRAINING SERVICES

M&O Libya is your 'one stop shop' for a diverse range of training services, to ensure a safe and competent operating environment in the potentially hazardous oil and gas industry. All training courses and services can be customised to meet the specific requirements of our clients, focusing on required content and learning outcomes to achieve your in house objectives.

Courses are conducted by qualified professionals, and cover topics including;

- First Aid & Emergency Medical Training
- Fire Safety & Fire Fighting Courses
- Maritime & Offshore Safety Training
- Health & Safety Training Courses
- Specialised Drilling, Safety, & Emergency Management Training Courses

A TOTAL APPROACH TO EMERGENCY RESPONSE

M&O Libya's range of training and services prepares your people and organisation to comprehensively deal with all elements of emergencies that may arise in the upstream and downstream oil and gas industry.

From writing and developing emergency response plans, to training personnel in skills and competencies to respond to likely emergencies, and managing the emergency from the Board Room down, M&O Libya provides a total approach to emergency mitigation....from response to recovery.

QUALITY ASSURED

M&O Libya conducts all of its operations according to our ISO 9001:2001 Quality Management System (QMS), ensuring the highest quality and standard of operations.

All training courses and instructors are also regularly audited and upgraded to meet the rigorous requirements of the M&O Global GSS (Global Safety System), ensuring your trainees receive world class training at all times.

TRAINING SERVICES

OFFSHORE SAFETY TRAINING

M&O Libya are the leading provider of international standard offshore safety training courses for personnel working in the offshore oil and gas industry, including Helicopter Underwater Escape Training (HUET) and Sea Survival courses to prepare offshore workers for the possibility of a helicopter ditching over water.

The new M&O Libya Marine Training Centre in Tripoli, is a world class training facility which includes a fixed HUET simulator, heli winch, TEMPSC lifeboat and 3m deep swimming pool for all liferaft and water survival training scenarios.

Course topics include;

- HUET & Sea Survival
- Basic Offshore Sea Survival
- TBOSIET (Tropical Basic Offshore Safety Induction Training)
- Helicopter Landing Officer

FIRE SAFETY & FIRE FIGHTING COURSES

M&O Libya are leaders in the field of Fire Safety and Fire Fighting Training. From office fire safety to Emergency Response Team training for large industrial fires, there is no substitute for practical experience in dealing with live fire.

We use specialist live fire training facilities to incorporate extensive practical fire scenarios with background theory and discussions to ensure that trainees are as prepared as possible for the fires they may encounter.

Course topics include;

- Fire Extinguisher Use & Operation
- Fire Warden
- Self rescue (from a burning building)
- Wear & Operate Breathing Apparatus (SCBA)

CRISIS LEADERSHIP & MAJOR EMERGENCY MANAGEMENT TRAINING

M&O Libya offers training and consulting in crisis leadership, business continuity and major emergency management through its association with Risktec Australasia.

Risktec is an OPITO approved world leader in emergency management training and consulting, underpinned by experience in emergency response, risk, safety and security management services for the global oil and gas industry.

We review management systems, produce and revise policy, plans and procedures at all levels of organisations, and conduct realistic training to test and train personnel in your company's emergency response plans.

M&O Libya have developed a dedicated emergency management training suite with specifically designed simulation software and scenarios developed from our clients' emergency response plans and risk assessments. All training is customised to the clients' specific requirements.

Course topics include;

- OIM coaching & assessment
- Major Emergency Management
- Introduction to Major Emergency Management
- Crisis leadership from the board room down

TRAINING SERVICES

FIRST AID & EMERGENCY MEDICAL TRAINING

M&O Libya are specialists in First Aid and Emergency Medical Training and through our association with First Intervention, are one of the world leaders in paramedical training.

First Intervention is a Registered Training Organisation (RTO) approved to conduct training up to Advanced Diploma of Paramedical Science, using only qualified and experienced trainers.

All training courses are highly interactive, with extensive use of practical training scenarios and hands on patient treatment. Our courses teach practical life saving skills that help personnel respond to medical emergencies in the office and on the worksite.

Course topics include;

- CPR & Basic Life Support
- Emergency Care Responder
- Defibrillation & oxygen therapy
- Pre hospital emergency care & paramedic / ambulance officer training

HEALTH & SAFETY TRAINING

M&O Libya provides specialist Health & Safety Training and consulting, helping companies meet their obligations to make the workplace a safe place to be.

Our Health & Safety Courses are designed to meet international standards, and are continually updated to meet the latest Approved Codes of Practice in a range of industries.

All courses are flexible to reinforce your Health & Safety Policies and Systems, and can be designed to specifically build a practical understanding of how to apply safe working practices in your workplace.

Course topics include;

- Incident investigation
- Hazard identification / management
- Work safely at heights
- Confined space entry

SPECIALISED DRILLING TRAINING

M&O Libya conducts fully accredited specialised drilling training courses for qualified drillers and new entrants to the drilling industry.

Certificate in Well Control & Blowout Prevention (BOP) – this course is fully accredited with IADC and the IWCF, with course curriculums to address Introductory, Fundamental and Supervisory Levels, for surface stack, combined surface or subsea operations.

Greenhand Training - Introductory level training for roughnecks and roustabouts entering the industry, includes an overview of drilling equipment and techniques, plus practical and theoretical training to safely commence employment in the drilling industry.
